Why support the Local Option
for Sunday Sales in Georgia?

- It gives your community the right to decide.
- Revenue is leaving our state every Sunday for bordering states with less restrictive laws.
- The U.S. Distilled Spirits Council estimates Georgia could see an increase of \$4 million in tax revenue.
- Local control is better than big government.
- Only 2 other states in the U.S. still have Sunday prohibition.
- Future legislation could legalize Sunday Sales outright; this bill gives your community the power to decide for itself.

Because Georgians are asking to have their voices heard!

Contact Your State Legislators and ask them to support **SB 10**
